

SIDE ACTION DURING WORLD SERIES OF POKER

The World Series of Poker in Las Vegas encompasses a lot more than what you see on ESPN.

During the seven-week series each Summer at the Rio All-Suite Hotel & Casino in Las Vegas, the Rio Convention Center is transformed into a poker player's dream, with non-stop action in every form and buy-in level imaginable.

In addition to 62 gold bracelet events being offered in 2013, the Rio will also host **24-hour cash games, single-table satellites, mega-satellites**, and **daily Deepstack tournaments**, all which promise to be bigger and more robust than ever before.

There are a total of 480 poker tables in use during the WSOP – the most ever – and this will allow us to accommodate as many players for each event as the demand dictates.

If you are looking for a cash game, a satellite or Daily Deepstack tournament, you will want to head to the Pavilion Ballroom in the Rio Convention Center. The Pavilion is the largest poker room in use during the WSOP, and features 257 poker tables.

The Pavilion has its own cage and registration area, so if you are entering Daily Deepstacks, satellites or cash games, we encourage you to go straight to the Pavilion Room, register and begin play all in the same room. The only exception is if you do not have a Total Rewards Player Card. If you have yet to sign up for Total Rewards, complete this task in the rotunda using your valid photo identification and then enter the Pavilion Room to start your play.

Below you will see details of the Daily Deepstacks and the variety of cash games being offered.

Daily Deepstacks

During the WSOP, three daily one-day Deepstack events are scheduled. They begin promptly at 3 PM, 6 PM and 10 PM, beginning May 29 and continuing through July 12.

All our Deepstack tournaments feature 30 minute levels and play continues until we have a winner.

Re-entry is allowed in these events through 4 levels of play. Players must be out of chips before they can re-enter, but they can re-enter as many times as they wish, prior to registration closing at the end of Level 4. (Approximately 2 hours, 20 minutes after event start time)

May 29 – July 15, 2013

3 PM	\$235 Buy-In	15,000 in starting chips
6 PM	\$185 Buy-In	10,000 in starting chips
10 PM	\$135 Buy-In	5,000 in starting chips

Cash Games

The "green" section of the Pavilion Ballroom is the epicenter for WSOP cash games. To locate the green section, simply enter the Pavilion Ballroom and locate the signage in the walkways with green-colored table numbers.
