Prize Pool: \$63,000

October 16-17, 2016

Navin Kamal Wins Rings Five Years Apart in Hammond

Local office manager snags second gold ring on the anniversary of his first

Hammond, Indiana (October 18, 2016) — Navin Kamal is the champion of Event #3 at Horseshoe Hammond, defeating a field of 126 entries to win the \$580 Pot-Limit Omaha event. The victory is Kamal’s second on the Circuit, this one coming five years to the day from his first win in the same building. This one earned him the top prize of \$17,639 and 50 points in the race for Casino Champion at this venue.

Kamal is a 43-year-old office manager and former math teacher from Naperville, Illinois. He picked up poker casually at first, as he tells: “Like a lot of people, I started watching on TV. Some of the east-coast tournaments they used to broadcast late at night.” That sparked an interest to try it for himself, and he started dabbling in some of the daily turbo events at his local casinos when he had spare time. “I started winning a few of those, and... well... there you go,” he said.

The breakthrough performance five years ago was his first tournament cash on record, and it culminated in a Circuit win for more than \$42,000. That victory was in hold’em, the game Kamal considers his primary discipline. “I don’t... play PLO... a lot,” he said after this anniversary victory, which came in the four-card game. “I’m pretty shocked. Just surprised.”

Part of Kamal’s shock has to do with his plight on Day 1. He began the tournament with the standard 12,000-chip starting stack, and at the end of the long day, he bagged up exactly that same amount — 12,000 chips. That put him in last place on the leaderboard with 18 players in front of him. “I thought if I had to play three hands and then drive back to Naperville, that was going to suck,” he said of the 90-minute drive. “This is PLO, though. You don’t need a lot to grow [your stack].”

Kamal found double-suited aces and tripled up very early in the day, and from there it was a relatively steady run to the final table. He began ten-handed play in the middle of the pack, and he soon found himself heads up and severely out-chipped against Oleg Sobol.
